Member of the Medicine-Pharmaceutical Cluster NANOMEDIC

AMPI, spol. s r.o.

- is a Czech manufacturer and supplier of fillers, closing machines, conveyors and special machines
- produces and supplies semi-automated machines, automated machines, and complete packaging lines
- supplies customer-tailored machines
- supplies machines and devices suitable for operational facilities, pilot plants and laboratories including all necessary transporting lines
- supplies modular systems to meet the requirements of customers with similar but not identical wishes
- supplies machines and devices for use in the field of pharmacy, cosmetics, food industry and chemistry
- offers its customers high creativity and long-term specialized experience
- produces and supplies machines and devices which are designed in compliance with GMP requirements in pharmaceutical plants
- performs overhaul services and machine upgrading and provides spare parts and measure parts for domestic and foreign machines
- ensures supplies from domestic and foreign producers
- provides free consultations concerning the preparation, filling, closing, and adjustment
- keeps an updated list of older lines, machines and devices which can be bought at affordable prices.

In connection with the production programme, the role of AMPI in the Cluster lies in the development, engineering and the manufacture of new special machines and devices developed within the Cluster to ensure the production of implants and carriers for biologically active substances.
